

D8420/D8421 Aerosol Primers

Effective and easy to use

New Aerosol
Primers from PPG.
They couldn't be
easier to use.

The 2 new Aerosol Primers from PPG provide a durable system efficiently, increasing bodyshop productivity and profitability. Supported by a global brand, D8420 and D8421 are the new additions to the PPG Aerosol range, delivering high quality systems that are:

- **Fast drying**
- **Ready for use**
- **Easy to apply**
- **Flexible**
- **Efficient - no need for gun-cleaning**

Make it happen. With PPG

D8420: Primer for Plastic Substrates

D8421: 1K Aerosol Primer

Effective and easy to use

D8420

D8420 is a new plastics primer. Supplied ready for use in an Aerosol, thus eliminating the need for gun-cleaning, this transparent adhesion promoter has a rose coloured tint to assist the user in application.

It is suitable for use on a wide variety of plastic substrates and can be directly top coated with both Envirobase and all Deltron systems. D8420 is fast drying, easy to apply and provides excellent adhesion to most plastic substrates.

D8421

D8421 is a 1K Primer ideal for use on rub-throughs and breakthroughs prior to the application of colour.

This primer is also suitable for use on small spot repairs and can be directly topcoated with both Envirobase and all Deltron systems.

Delivering fast process times, D8421 provides durability to the complete paint system.

- **Fast drying**
- **Ready for use**
- **Easy to apply**
- **Flexible**
- **Efficient - no need for gun-cleaning**
